|   | 2. Hazard(s) identif   | ication  |
| Classification  |  |  |
| WHMIS 2015 Classification   | Classified as bazardous under the H  | azardous Products Regulations (SOR/2015-17)  |

Serious Eye Damage/Eye Irritation Specific target organ toxicity (single exposure) Target Organs - Respiratory system. Category 2 Category 3

# Label Elements

Signal Word Warning

Hazard Statements Causes serious eye irritation May cause respiratory irritation

**Precautionary Statements** 

Manufacturer Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street, Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com

## Prevention

Avoid breathing dust/fume/gas/mist/vapors/spray Wash face, hands and any exposed skin thoroughly after handling Use only outdoors or in a well-ventilated area Wear eye/face protection

# Response

IF INHALED: Remove person to fresh air and keep comfortable for breathing

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Call a POISON CENTER/ doctor if you feel unwell

# Storage

Store in a well-ventilated place. Keep container tightly closed

# Store locked up

# Disposal

Dispose of contents/container to an approved waste disposal plant

# 3. Composition/Information on Ingredients

| Component                             | CAS-No    | Weight % |
|---------------------------------------|-----------|----------|
| Propanoic acid,                       | 4767-03-7 | >95      |
| 3-hydroxy-2-(hydroxymethyl)-2-methyl- |           |          |

| 4. First-aid measures   |   |  |
|---|---|--|
| Eye Contact   | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention. |  |
| Skin Contact  | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention if symptoms occur.     |  |
| Inhalation Remove to fresh air. Get medical attention. If not breathing, give artificial respiration. |   |  |
| Ingestion Do NOT induce vomiting. Get medical attention.  |   |  |
| Most important symptoms/effectsNo information available.Notes to PhysicianTreat symptomatically       |   |  |
|   | 5. Fire-fighting measures   |  |

| Suitable Extinguishing Media | Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam. |
|------------------------------|--|
|------------------------------|--|

Unsuitable Extinguishing Media No information available

| Flash Point   | > 150 °C / > 302 °F  |
|---|--|
| Method -  | No information available   |
| Autoignition Temperature  | 300 °C / 572 °F  |
| Explosion Limits<br>Upper<br>Lower<br>Sensitivity to Mechanical Impact<br>Sensitivity to Static Discharge | No data available<br>No data available<br>No information available<br>No information available |

#### **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors. Keep product and empty container away from heat and sources of ignition.

#### Hazardous Combustion Products

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>).

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

### NFPA

| <u></u>  | Health<br>2       | Flammability<br>1  | <b>Instability</b><br>0 | Physical hazards<br>N/A |
|----------|-------------------|--|-------------------------|-------------------------|
|          |                   | 6. Accidental rel  | ease measures           |                         |
| Personal | Precautions       | Use personal protective equipment as required. Ensure adequate ventilation. Avoid dust formation. Avoid contact with skin, eyes or clothing. |                         |                         |
| Environm | ental Precautions | Avoid release to the environ   |                         |                         |

Methods for Containment and Clean Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Up

|          | 7. Handling and storage   |
|----------|---|
| Handling | Wear personal protective equipment/face protection. Ensure adequate ventilation. Do not get in eyes, on skin, or on clothing. Avoid ingestion and inhalation. Avoid dust formation. |
|          |   |

Storage

# Keep containers tightly closed in a dry, cool and well-ventilated place.

|                     | 8. Exposure controls / personal protection                                       |
|---------------------|--|
| Exposure Guidelines | This product does not contain any hazardous materials with occupational exposure |
|                     | limitsestablished by the region specific regulatory bodies.                      |

#### Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

## Personal protective equipment

| Eye Protection  | Goggles   |
|-----------------|---|
| Hand Protection | Wear appropriate protective gloves and clothing to prevent skin exposure. |

| Glove material | Breakthrough time | Glove thickness | Glove comments         |
|----------------|-------------------|-----------------|------------------------|
| Natural rubber | See manufacturers | -               | Splash protection only |
| Butyl rubber   | recommendations   |                 |                        |
| Nitrile rubber |                   |                 |                        |
| Neoprene       |                   |                 |                        |
| PVC            |                   |                 |                        |

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

### **Respiratory Protection**

No protective equipment is needed under normal use conditions.

### Environmental exposure controls

No information available.

### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

| 9. Physical a                          | and chemical properties     |

Persistence and Degradability Persistence is unlikely

### **Bioaccumulation/Accumulation**

No information available.

Mobility

. Will likely be mobile in the environment due to its water solubility.

| Component   | log Pow |
|---|---------|
| Propanoic acid, 3-hydroxy-2-(hydroxymethyl)-2-methyl- | -1.1    |

# 13. Disposal considerations

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.
