

Volumetric flasks for sugar analyses

DURAN® borosilicate glass 3.3, standard type, fused blue graduation "ASSISTENT-PERMANENT", without stopper, with 2 marks

42109008 Capacity 50/55 ml

42109016 Capacity 100/110 ml

Volumetric flasks, trapezoidal, conformity certified, DURAN® borosilicate glass 3.3

with standard ground joint and interchangeable stopper made of polyethylene, fused blue graduation "ASSISTENT-PERMANENT" The base is considerably larger than of standard volumetric flasks with same volume, thus improved stability.

Available with individual certificate of performance, USP batch certificate or DAkkS calibration certificate. Please indicate the request in your order! (see chapter beginning)

	Tolerance	Capacity	Joint size
42110006	0.025 ml	1 ml	7/16
42110012	0.025 ml	2 ml	7/16
42110018	0.025 ml	5 ml	7/16
