Adenosine 5'-triphosphate, disodium salt hydrate, 98%

[MSDS](#) [Specifications](#) [3D model](#) [Infrared](#) [Molfile](#)

General			
Product Name	Adenosine 5'-triphosphate, disodium salt hydrate ATP, disodium salt hydrate		
CAS RN	34369-07-8		
ACD Code	MFCD00150755		
Structure			
Molecular Formula	C10 H14 N5 Na2 O13 P3 . x H2 O		
Molecular weight	Number format exception		
Pack size	Catalog	Qty / UM	Price (USD)
	102800100	10 GR	145.20 Order Check stock Glass bottle
	102800500	50 GR	553.00 Order Check stock Glass bottle
Physical			
Melting Point (°C)	188 - 190		
Safety			
Other			
Infrared	Show		
Parameter	Solubility Origin References: Literature Reference: Merck	Solubility in water: freely soluble other Nucleic acid component.Energy donor in metabolism. 14,155	Solubility in other solvents: insoluble in alcohol and ether
3D model	Show
